# How to enable Flash player in Chrome

1. **chrome://settings/content**

2. Allow Flash to run

Click on "Flash" and, where it says "Block sites from running Flash (recommended)", toggle the switch on. It'll now say "Ask first":

Settings		Q Search settings

← Flash   Q Search

People
Autofill

Accessibility
System
Reset settings

Your Flash settings will be kept until you quit Chrome.
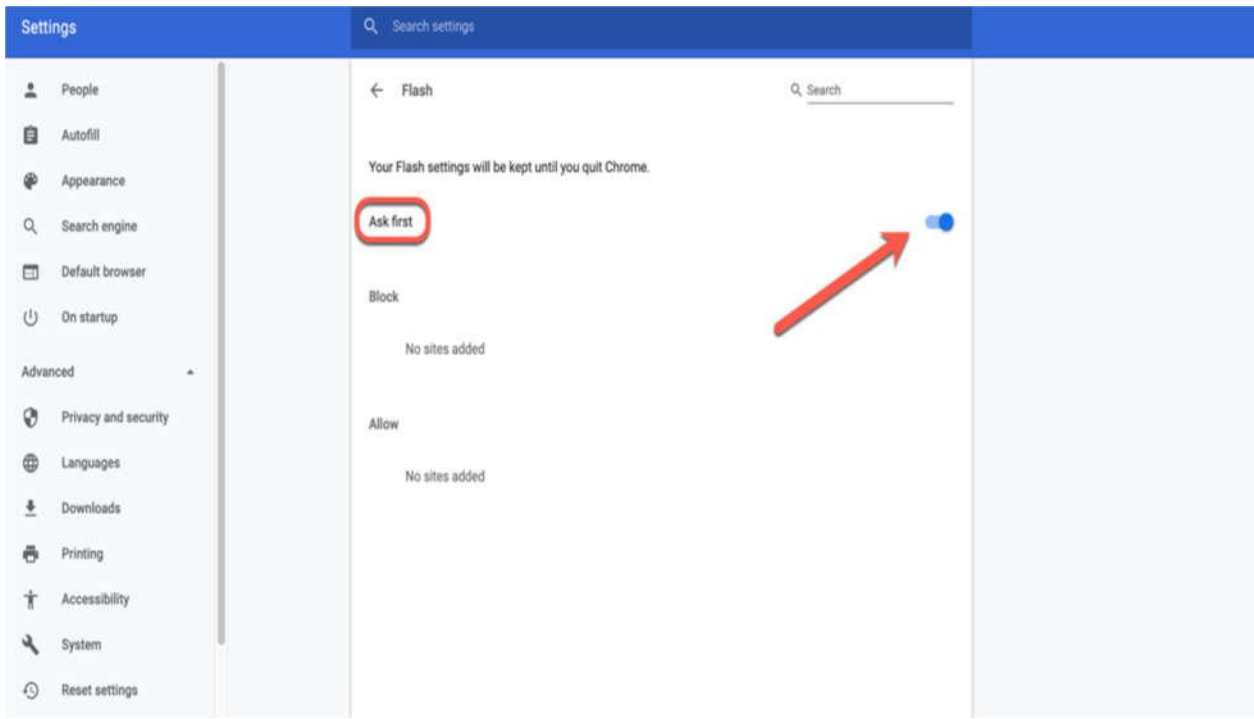

Ask first

Block

    No sites added

Allow

    No sites added

3. Open site with flash and click allow
